VILLAGE OF CARY

August 31, 2020

RE: Jandus Road Pedestrian Safety & Accessibility Improvements

Dear Jandus Road Business Owners:

Beginning the week of September 8 (after the Labor Day holiday), the Village of Cary will be implementing pavement marking and parking space adjustments to enhance the pedestrian safety and accessibility along Jandus Road. The changes are depicted on the enclosed map and include:

- 1) Revised lane marking striping with a buffer to improve the visibility of pedestrians: This will enhance the safety for customers walking between parked vehicles to access the commuter lot parking that is free after 11:30am and on weekends.
- 2) Relocation of 1 handicap accessible parking space to the northwest end of the block: This distributes accessible spaces more equally per current ADA guidelines, and will also result in two 2-hour parking spaces located more convenient to the southeast end of the block.
- 3) Addition of two (2) temporary drop-off spaces: Located approximately mid-block for use during the State's emergency response to the COVID-19 pandemic while lobby spaces and building occupancy are limited or unavailable, these signs will be removed upon reaching Phase 5 ("Restored") of the Restore Illinois plan at the end of the pandemic.

In addition, the posting of two 15-minute parking spaces at the far northwest end of the block was recently approved by the Village and signage will be installed once the south commuter parking lot is reopened after paving is completed.

If you have any questions, please feel free to email the Village of Cary at CaryPW@CaryIllinois.com or call Courtney in the Public Works Department at 847-639-0003.

Sincerely,
The Village of Cary
